RE: U.S. District Court for D.C. Docket No. 98-CV-1300

Dear Ms. Henney,

Current FDA policy violates the agency's statutory mandate to protect public health and provide consumers with relevant information about the foods they eat, because the current policy permits genetically altered foods to be marketed without testing and labels.

As a consumer and a voter, I resent this policy and demand that genetically altered food be labeled as such.

Sincerely,

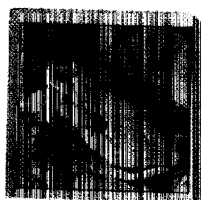

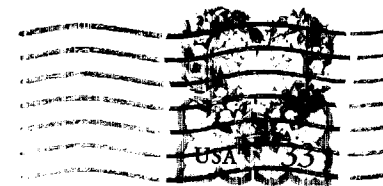

Irene Mills
